

VARTIKA AGARWAL

Greater Noida, India | vartika.goel14081996@gmail.com | www.linkedin.com/vartikably

An enthusiastic and self-motivated full stack developer with 5 of experience in delivering innovative, reliable, and efficient software solutions. Proven expertise in process-oriented development and a strong background in Java-based enterprise applications. Adept at working in agile environments and collaborating with cross-functional teams to drive product success. Demonstrates excellent problem-solving skills, a strong analytical mindset, and a commitment to delivering high-quality software.

EDUCATION

Integrated B. TECH (Computer Science Engineering) + M. TECH (Software Engineering) | Gautam Buddha University
Degree obtained June 2019

EXPERIENCE

Senior Software Developer | Birlasoft | Noida, India
September 2022 – Present

- Collaborated with an agile team on a high-priority enterprise project within the BFSI sector for a leading US bank, focusing on the development of highly available and secure software solutions.
- Used Java, Spring Boot, Hibernate, and CI/CD pipelines to write modular, efficient, and reusable code, enhancing the project's scalability and performance.
- Contributed to the migration of the project to React and Micro-frontend architectures, working closely with the team.
- Implemented key enablers aimed at improving customer experience and satisfaction, showcasing a commitment to delivering high-quality development practices.

System Engineer | Tata Consultancy Services | Gurugram, India
June 2019 – August 2022

- Contributed to the development and enhancement of advanced solutions for corporate actions within TCS products, catering to multiple banking clients.
 - Developed scalable and efficient enhancements for TCS Bancs using Java.
 - Automated software installations via shell scripting, boosting deployment efficiency and minimizing manual effort.
 - Built a test monitoring system using Appium with Python and created a performance tracking dashboard.
-
